PROFILE

Frontend Developer & Design Engineer with **2+** years of experience shipping production-grade web apps. Combines design sensibility with technical execution in **Next.js, TypeScript,** and **Tailwind** to build accessible, high-performance interfaces.

PROFESSIONAL EXPERIENCE

Frontend Developer & Designer 02/2025 – 07/2026
Innovative Application Consultants Remote

- Built a complete **design system** and **project boilerplate** from scratch, accelerating new project launches by 1-**2 weeks** and ensuring UI consistency across **14+ projects**.
- Enforced team-wide code review protocols and automated linting for a **6-person team**, driving a **20% drop** in regression bugs and cutting technical debt across active projects.

Frontend Intern 08/2024 – 01/2025
Augutsya Techno Projects Remote

- Built multiple **reusable, accessible UI components** in a component-based architecture, shrinking feature development time by **2+ hours** per sprint.
- Integrated **REST APIs** into **production web apps**, ensuring sub-**20ms** response times and seamless data flows across systems.

Graphic Designer 08/2023 – 07/2024
Saanwara Remote

- Produced a variety of **visual assets** (illustrations, social graphics, campaign collateral) for marketing initiatives reaching thousands of **customers**.
- **Maintained a 100% on-time delivery rate** across all creative briefs, consistently meeting tight deadlines without compromising visual quality.

SKILLS

- **Frontend:** Next.js | React | TypeScript | JavaScript | Tailwind CSS | shadcn/ui | HTML5 | SCSS
- **Design:** Framer Motion | GSAP Animations | Figma | Affinity Studio | Photoshop
- **Integration & Testing:** REST APIs | WebSockets | Cypress | CI/CD
- **Others:** Rust | Swift | Python | Linux | Git | Turbopack | Webpack | Vite

SHOWCASE PROJECTS

Hydra Launcher
Open-source Steam Alternative

- Part of the core development of **Hydra Launcher**, an open-source Steam alternative with **16,700+ GitHub stars, 2.9M+** registrations, and **30K daily active users.**
- Reworked the user library and download systems using **aria2c, TypeScript, Python, and SCSS**, delivering major UX improvements that received overwhelming **positive community feedback**.

Spider UI
Open-source Component Library

- Built Spider UI, an **open-source component** library of **motion-rich** React components using **Tailwind**, **TypeScript**, and **Framer Motion**. Distributed via the **shadcn** ecosystem.

Wallzilla
Live macOS Wallpaper Platform

- Live wallpaper app for macOS with l**ock screen support**, **custom video wallpapers**, **multi-monitor support**, and more written in native **Swift** with only **0.3% CPU** and **<150MB RAM** usage.

EDUCATION

Masters in Information Technology (MSc. IT) Present
Panjab University Chandigarh, India

Bachelors in Computer Application (BCA) 2022 – 2025
Panjab University Chandigarh, India

12th Standard | Medical with Computer Science 2021 – 2022
St. Xavier's Sr Secondary School, ISC Chandigarh, India
